

Billing, Payments and Refunds

How to update my credit card information?

The credit card details you used when purchasing Blog2Social Premium can be changed at any time. As we work with the payment provider PayPro Global, you can change your data in your PayPro customer dashboard by the following steps:

1. Enter PayPro Global account:

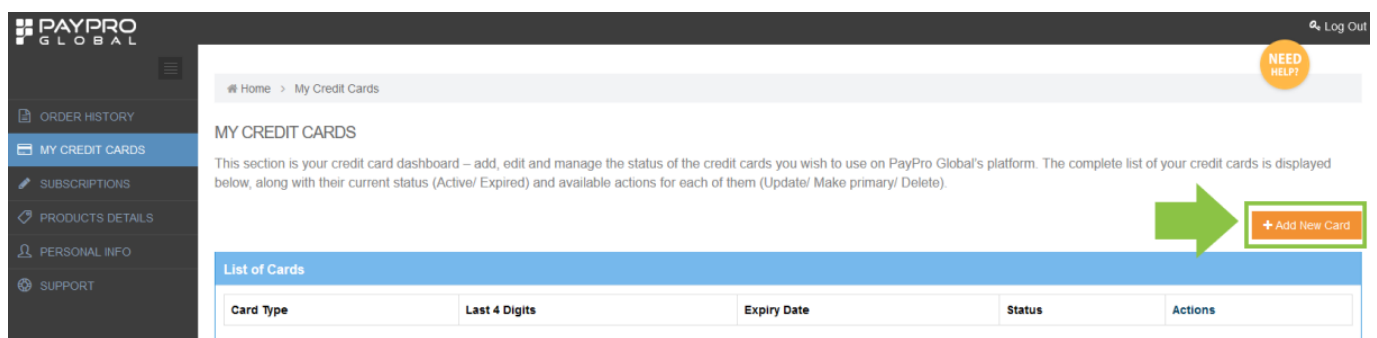

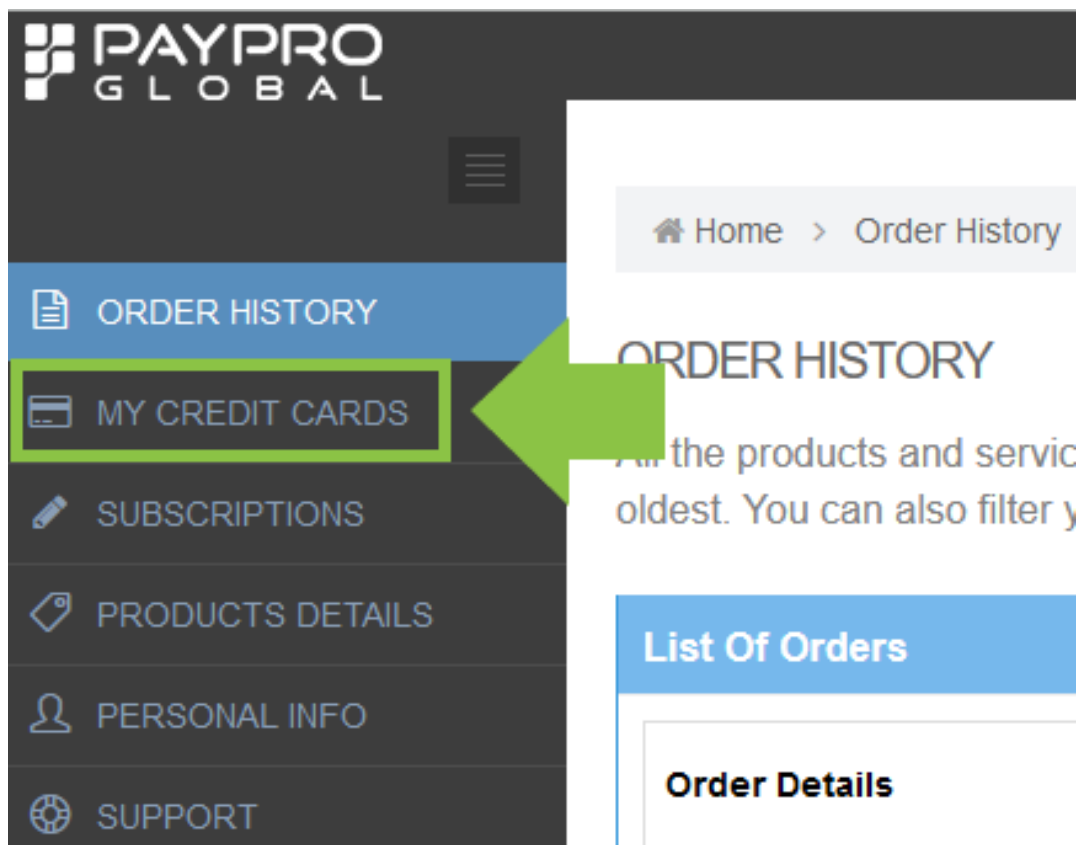

PayPro Global login:

<https://cc.payproglobal.com/Customer/Account/Login>

Password reset (if needed):

<https://cc.payproglobal.com/customer/Account/ResetPassword>

2. After you enter your account please go to "**My Credit Cards**" and click on "**Add New Card**" on the left side of the screen.

Billing, Payments and Refunds

If you have several credit cards in your account, please choose "**Make primary**" in box "**Actions**" next to the credit card that should be used for the payment.

3. Go to section "**SUBSCRIPTIONS**" and attach the needed credit card to the subscription that should be renewed/billed (in case you have several subscriptions and several credit cards in your account).

If the subscription has the status "**active**", there will be an automatic attempt to charge your card. If the status is "**suspended**" please press "**renew**" and the payment attempt will be made during the following 12 hours.
