

Connecting Social Networks

How do I connect Blog2Social with Medium?

To connect to Blog2Social to your Medium, please go to "**Networks**" within your Blog2Social Dashboard. Here you find an overview of all the networks you can connect Blog2Social with. Just click on "**Connect Profile**" or "**Connect Publication**".

The screenshot displays the Blog2Social dashboard interface. On the left, a dark sidebar contains navigation options: Dashboard, Posts, Media, Pages, Comments (2), Opinion Stage, Icegram Collect, Icegram Engage, Profile, Tools, Yoast SEO, Blog2Social, and a sub-menu for Dashboard (Networks, Social Media Posts, Video Posts, Social Media Metrics, Calendar, Settings, PR-Service, Help & Support, PREMIUM). The main content area is divided into three sections. The top section, 'Networks', lists various social media platforms with their respective connection options: LinkedIn (Connect Profile, Connect Page), Xing (Connect Profile, Connect Employer Branding), VK (Connect Profile, Connect Page, Connect Community), Tumblr (Connect Blog), Medium (Connect Profile, Connect Publication), Torial (Connect Profile), Flickr (Connect Profile), Diigo (Connect Profile), and Reddit (Connect Subreddit). The 'Medium' entry is highlighted with a green box, and a large green arrow points from the left towards the 'Connect Profile' and 'Connect Publication' buttons. Below the network list, there are sections for 'BLOG2SOCIAL BLOG NEWS' featuring articles like '15 Best Social Media Management Apps for Your Small Business' and 'The Key to Unlocking Your Business Potential Using Social Media', and a 'RATE BLOG2SOCIAL' button.

Please follow the instructions of Medium to authorize your profile.
