Connecting Social Networks
How do I connect Blog2Social with Instagram?

Information about the Instagram interface

Instagram supports social media tools for Instagram Business Accounts only, which can be connected in Blog2Social at "**Networks**" -> "**Instagram**" -> "**Connect Business**".

You can easily convert your Personal Instagram Account into a Business Account (see below) and reconnect your Instagram Business Account with Blog2Social (all premium versions).

Even if you have a private blog or website, you can use the Instagram Business Account and benefit from all new possibilities for your Instagram marketing.

The following guide shows you how to convert your Personal Instagram Account:
[How to convert your Personal Instagram Profile into a Business Account](#)

Connecting a Facebook page can be done from Facebook or directly in Instagram. The following guide shows you how to easily connect your Instagram Business Account with your Facebook page:
[How to connect your Instagram Business Account with your Facebook page](#)

After you have checked and configured these two requirements, you can connect your Instagram Business Account with Blog2Social. The following guide shows you how you can do this:
