

# Connecting Social Networks

## How do I connect Blog2Social with my Mastodon profile?

To connect Blog2Social with your Mastodon profile, please go to "**Networks**" within your Blog2Social Dashboard. Here you find an overview of all the networks you can connect with Blog2Social. Please click on "**Connect Profile**" next to Mastodon.

The screenshot displays the Blog2Social dashboard interface. On the left, a dark sidebar contains a navigation menu with items like Dashboard, Posts, Media, Pages, Comments, Opinion Stage, Icegram Collect, Icegram Engage, Profile, Tools, Yoast SEO, and Blog2Social. Under the Blog2Social section, 'Networks' is highlighted with a green arrow. The main content area shows a list of social media networks, each with a 'Connections 0/15' indicator, a 'Best Time Manager' link, and a 'Connect Profile' button. The 'Mastodon' entry at the bottom has its 'Connect Profile' button highlighted with a green arrow.

A separate window will open and ask for your server. Please choose your Mastodon server and click on "**Authorize**".

# Connecting Social Networks

Enter the correct url of the Mastodon server you want to connect with. For example "mas.to".

[Here you can find an overview of existing Mastodon servers](#)

## Choose Server

Mastodon server

Authorize

Now you can enter your e-mail address as well as your password and click on "**Log In**".

# Connecting Social Networks

## Sign in to mas.to

Sign in with your mas.to credentials. If your account is hosted on a different server, you will not be able to log in here.

E-mail address

Password

**LOG IN**

[Sign up](#) [Forgot your password?](#) [Didn't receive confirmation instructions?](#)

Done! You've successfully authorized your Mastodon profile with Blog2Social.
