

Connecting Social Networks

How do I connect my BAND with Blog2Social?

What is BAND.us?

[BAND](#) is a group communication platform designed for teams, clubs, friend groups and organizations. It offers features such as chat, calendar, polls, photo and video sharing, and announcements to facilitate collaboration and interaction within groups. BAND is especially popular among sports teams, gaming communities and school groups, as it provides a structured and interactive way to stay organized.

In order to connect your Bands with Blog2Social, start by going to "**Networks**" within your Blog2Social Dashboard. Here, you'll find an overview of all the networks you can connect Blog2Social with. To connect to your Bands, simply click on "**Connect Band**". Please make sure that you have joined at least one Band to establish the connection.

A separate window will open and ask you for your permission and login data if you're not already logged into Band.us in your browser. Please allow access to all Bands you have joined or to specified Bands only by clicking on "**Agree**".

Connecting Social Networks

Connecting Social Networks

If you've joined multiple Bands, you can easily choose which one shall be connected in the dropdown menu. Now you can click on "**Authorize**".

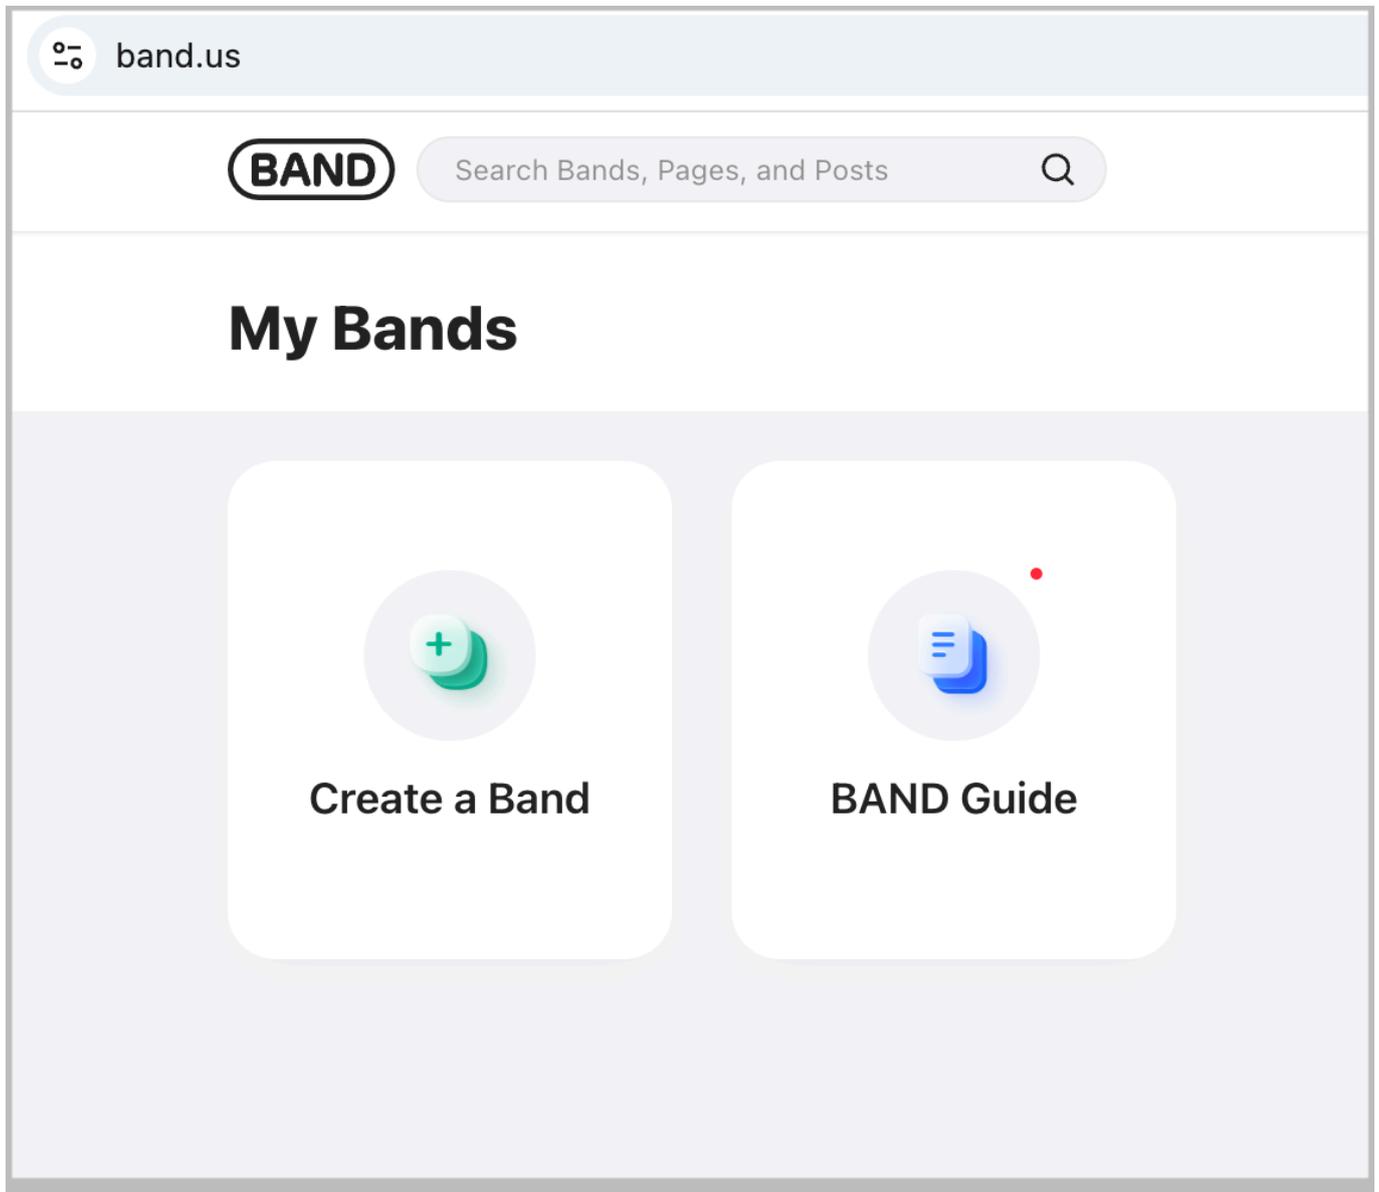

The screenshot shows a user interface for connecting to Blog2Social. At the top left, there is a green square icon with a white lowercase 'b' and the text 'Connect with Blog2Social'. Below this, the text 'Select Band' is centered. Underneath, there is a dropdown menu with a list icon on the left and the text 'My Workplace' in the center, followed by a downward-pointing chevron. To the right of the dropdown menu is a blue button with the text 'Authorize' in white.
