Connecting Social Networks How do I connect my Facebook page with Blog2Social?

If you are wondering how to connect a Facebook page with your blog or are interested in connecting your Facebook page with WordPress, this guide will help.

Start by going to "**Networks**" within your Blog2Social Dashboard. Here, you'll find an overview of all the networks you can connect Blog2Social with. To connect to your Facebook page, you need to be the admin of that page. Simply click on "**Connect Page**" next to Facebook to proceed.

ℬ Dashboardオ Posts	Blog2Social Version 7.4.1	Networks

A separate window will open and ask you for your login data if you're not already logged into Facebook in your browser. Please confirm your authorization by entering:

- Your email
- Your password

If you manage multiple pages, you can easily choose which specific Facebook page to connect:

- Select the specific page in the drop-down menu
- Confirm everything by clicking on "Authorize"

Connecting Social Networks

Connect with Blog2Social			
	Select Page		
N	Not all Facebook pages are being displayed to you? Please check 🗙 this guide.		
	Blog2Social ~		
	Authorize		

Done! You've successfully authorized your Facebook page with Blog2Social. Now you can seamlessly share and schedule content to improve your workflow.

We could not find a page related to your profile

If you're facing this notification when trying to connect your Facebook page, please check the troubleshooting steps in the following tutorial: <u>When connecting, my Facebook page or Instagram account is not found.</u>
