

Contracting and Licensing

How do I change the email and password of my Blog2Social account?

If you would like to change the email address or password you use to log into your Blog2Social account, please go to <http://service.blog2social.com/en/login/> and log in as usual.

Click on the "**Account**" tab, and you will have the option to change both your email and your password.

After making any changes, don't forget to save them.

The screenshot shows the Blog2Social dashboard. On the left is a sidebar with 'Dashboard' and three buttons: 'Licenses', 'Account' (highlighted), and 'Invoices'. On the right, there are 'Sales Request' and 'Support Request' buttons. The main content area is titled 'Your account information' and contains two sections: 'E-Mail' with the text 'Mail@...com' and a 'change' button, and 'Password' with a masked password '*****' and a 'change' button. Two green arrows point to the 'change' buttons in the E-Mail and Password sections.

If you would like to change the email you used to activate your Blog2Social license under "**Blog2Social**" -> "**Premium**", please refer to the following guide, which explains how to do this:
