How do I activate my License Key?

After you've registered for the free trial or purchased a Blog2Social Premium version (**Smart, Pro or Business**) you'll receive a license key in your welcome email, together with the log in credentials. Please also check your spam folder of your email inbox.

The following steps show you how to activate your WordPress user with your license key:

- 1) Copy the license key you've received ([Where do I find my license key?](#)).
- 2) Log into your WordPress website with the specific user that you want to activate.
- 3) Go to "**Premium**" or "**Upgrade License**".
- 4) Paste your license key in the respective field and click on "**Submit**".

The screenshot displays the Blog2Social WordPress dashboard. On the left sidebar, the 'PREMIUM' menu item is highlighted with a green box and an arrow. The main content area shows the 'License details & upgrade' section. The current license is 'Free'. A green box highlights the 'Activate License' button, with an arrow pointing to it. Below this, there is a 'Submit' button. A link 'Where do I find license keys?' is also visible. The dashboard also features a 'POST MANAGEMENT' section with various options like 'All Posts', 'Favorites', 'AI Assistant', 'Drafts', 'Instant Sharing', 'Scheduled Posts', 'Shared Posts', 'Re-Share Posts', 'Share Videos', 'Auto-Post', 'Calendar', and 'Notifications'. At the bottom of the sidebar, the 'Upgrade License' option is also highlighted with a green box and an arrow.

If you're using the **Business version** of Blog2Social, you can assign your license key to other WordPress users on your website. Please check the following guide: [User management: How to assign license keys and social media accounts to other users](#)

Contracting and Licensing

In order to check the current status of your Blog2Social license, you can log in here with the user data you received via email when you registered your account:

<https://service.blog2social.com/en/login/>

You'll see an overview of your Blog2Social account. Here you can edit the users that you have activated with your license key. After deleting a specific user, you can use the license key again for another user or website.
