More of Jerry's social media strategy: https://youtu.be/pJuGiJymBEY

You can either download the Zip-file or install the plugin right from the Wordpress admin panel.
Once you have downloaded the ZIP-archive, just upload it to your blog by clicking on"**Plugins**" -> "**Add new**" -> "**Upload Plugin**" in the upper left. After that, click on "**Install**".

If you download Blog2Social from your WordPress administration panel click on "**Plugins**" -> "**Add new**" and enter "**blog2social**" in the search field in the upper right corner, then click on "**Install Now**".
Now it appears in the left hand side navigation menu.
