

Autoposting, Sharing und Re-Sharing

Re-share posts automatically

Keep your social media feed updated automatically with awesome content and save valuable time for reviving your evergreen content and images.

Re-sharing your evergreen content automatically helps you to revive your best content from time to time. Automatic re-posts also make it easy for you to create your perfect content mix of evergreen content with new posts and curated content to keep your social feeds interesting, rich, and diverse. Automate your resharing process with Blog2Social, so you can use your valuable time to create new content and interact with your community.

It's easy: Define which blog posts, pages, or custom post types you would like to revive, as well as the time and interval and Blog2Social, will fill your social media feeds for you automatically.

Add to queue

Autoposting, Sharing und Re-Sharing

Select from the upper left drop-down menu how many posts should be added to your queue. You can choose to add 5-100 posts. Depending on your Blog2Social license, your re-sharing queue can be filled with 25 (Smart), 50 (Pro) or 100 (Business) posts in total. If you try to add more posts than your quota allows, Blog2Social will fit as many posts as possible from your selection. This also applies if there are already posts in your queue. You can see your queue below the settings.

Step 2 - Define which posts should be shared

You can now select which type of content you would like to add to your re-sharing queue.

Re-Share Posts NEW

Re-share your blog content automatically on your social media channels.

[Add to queue](#)

You can combine multiple options to exactly define the posts you want.

For example, if you want to re-post only selected posts (marked as favorite post) and only the most recent posts from a specific category and from a specific author, you can combine your settings as follows:

1. Post Types [Post]
2. Date [01.01.2021 - [28.07.2021]
3. Categories [Social Media]
4. Authors [Alexander]
5. Only include favorite posts
7. Consider only posts that have been shared a maximum of "1" times

Autoposting, Sharing und Re-Sharing

Re-Share Posts NEW

Re-share your blog content automatically on your social media channels.

Settings

Which content should be shared?

Number of posts

☐ share oldest posts first

☒ customize

☒ Post Types ☒ Include (Post only...) ☐ Exclude (Do no post ...)

☒ Date ☒ Include (Post only...) ☐ Exclude (Do no post ...)

☒ Categories ☒ Include (Post only...) ☐ Exclude (Do no post ...)

☒ Authors ☒ Include (Post only...) ☐ Exclude (Do no post ...)

☒ include favorites posts only

☒ include posts with images only

☒ only posts that have been shared no more than times

When should your content be shared?

☒ Post every days at

on ☒ Mon ☒ Tue ☒ Wed ☒ Thu ☒ Fri ☒ Sat ☒ Sun

☐ Post every at

Where should your content be shared?

Select network collection: [Info](#)

[Network settings](#)

Select Twitter profile:

[Info](#)

[Add to queue](#)

With these settings, only 5 of your favorite posts, created between 01.01.2021 and 28.07.2021 in the category Social Media, published by a specific author and filtered by a custom selection will be added to your queue.

Step 3 - Define when your content should be shared

When should your content be shared?

☒ Post every days at

on ☒ Mon ☒ Tue ☒ Wed ☒ Thu ☒ Fri ☒ Sat ☒ Sun

☐ Post every at

☐ at my best times

Select from the upper right menu the intervals for re-sharing your content.

Autoposting, Sharing und Re-Sharing

When should your content be shared?

☒ Post every days at

on ☒ Mon ☐ Tue ☒ Wed ☐ Thu ☒ Fri ☐ Sat ☒ Sun

☐ Post every at

☐ at my best times

You can choose to post every X days at a certain time and select which days your posts should be posted. For example : Post every [3] days at [12:15] on Monday, Wednesday, Friday, and Sunday.

When should your content be shared?

☐ Post every days at

on ☒ Mon ☐ Tue ☒ Wed ☐ Thu ☒ Fri ☐ Sat ☒ Sun

☒ Post every at

☐ at my best times

You can select to post on every X specified weekday at a certain time. For example: Post every [3]rd [Saturday] at [12:15]

When should your content be shared?

☐ Post every days at

on ☒ Mon ☐ Tue ☒ Wed ☐ Thu ☒ Fri ☐ Sat ☒ Sun

☒ Post every at

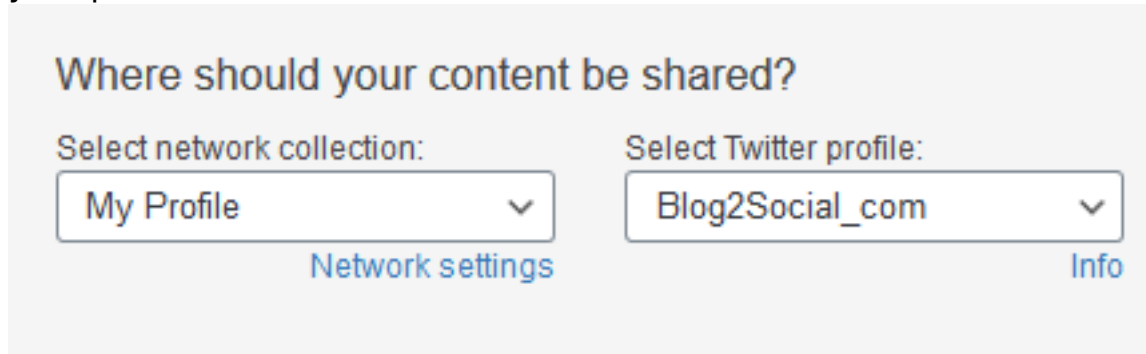

☒ at my best times

Instead of adding a time, you can also use the [best times](#) for both planning options.

Autoposting, Sharing und Re-Sharing

Step 4 - Select on which social media channels your content should be re-posted

Select the network collection with the social media accounts you want to re-share your posts to.

Where should your content be shared?

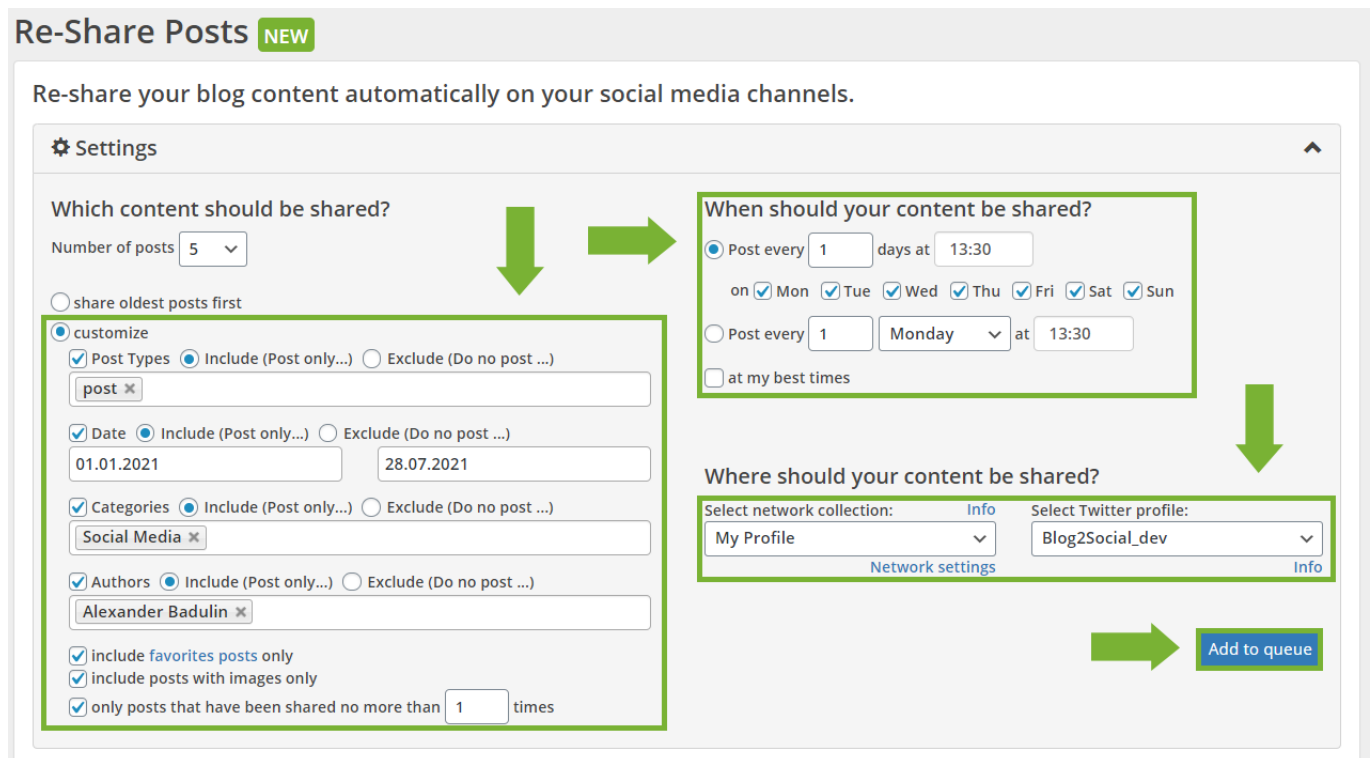

Select network collection: My Profile [Network settings](#)

Select Twitter profile: Blog2Social_com [Info](#)

If you have more than one Twitter account in this network collection, please select a primary Twitter account.

Step 5 - Add your content to your sharing queue

If you are happy with your selection and time settings, click on “Add to queue”. The selected configuration of your settings can be saved permanently. (optional)

Re-Share Posts **NEW**

Re-share your blog content automatically on your social media channels.
