

# Autoposting, Sharing und Re-Sharing

## How do I re-share already shared posts?

With Blog2Social you can share and re-share your posts on your social media profiles, pages, and groups as often as you like. There are various ways to achieve this goal. For example, you can re-share your old posts individually (Free). You also can set up [a recurring scheduling scheme](#) or [re-share your posts automatically](#) (Premium).

### How to re-share already shared posts individually

To share a post that you have already shared in the past, simply follow these steps:

- 1) Go to "**Social Media Posts**" in your Blog2Social dashboard.
- 2) Click on "**Shared Posts**".
- 3) Select the post you would like to post again and click on "**Re-share this post**".

The screenshot shows the Blog2Social dashboard. On the left, the 'POST MANAGEMENT' sidebar has 'Shared Posts' highlighted with a green box and a green arrow. The main area is titled 'Shared Posts' and contains a list of previously shared posts. Each post entry includes a title, a brief description, and a 'Re-share this post' button. A green arrow points to the 'Re-share this post' button for the first post in the list.

You will be forwarded to the usual Blog2Social one-page-editor. Select the networks you want to post to in the right-handed menu and customize your posts to your preferences. Then scroll down to the end of the page and click on "**Share**".
