Is Blog2Social GDPR compliant?

Yes, Blog2Social is GDPR compliant. The process to collect, use and store your personal data complies with the provisions of the EU General Data Protection Regulation GDPR (German: DSGVO / French: RGPD) as well as the German Federal Data Protection Act and the German Telemedia Act.

Blog2Social enables you to share your content on your own social media accounts. For this process Blog2Social provides the interfaces to connect to your social media accounts, so you can quickly and easily share all your content from a central dashboard. When using Blog2Social no personal data of the users of your website or blog will be collected or stored.
