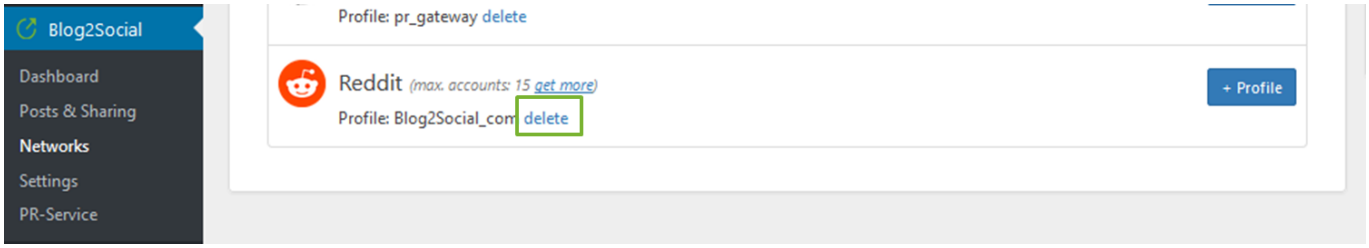
Troubleshooting for Error Messages

When I submit to reddit I cannot select all the subreddits I've subscribed to. Why?

After you have connected Blog2Social with your Reddit account, the API does not constantly update your subscribed subreddits.

If you frequently subscribe to new subreddits, please make sure to delete and re-authorize your Blog2Social connection with Reddit. Blog2Social will then update the selection of subreddits you can post to.



If you need help to re-authorize Reddit, please have a look at our FAQ:How do I connect Blog2Social with Reddit?
